

**CANDIDATE FOR DIRECTOR
YUCAIPA VALLEY WATER DISTRICT, DIVISION 3**

NAME: JAY S. BOGH

AGE: 40

OCCUPATION: Appointed Incumbent

In September 2005 I was **unanimously appointed** by the Yucaipa Valley Water District Board of Directors to be the 3rd District Director, and immediately began serving the 3rd District and its citizens.

As a long time resident of Yucaipa, it is exciting to see the Yucaipa Valley Water District is embarking on several major capital improvement projects, i.e. Crystal Creek Water Filtration Facility and the Wochholz Recycled Water Treatment Plant. My extensive background in public works projects makes me uniquely qualified to help oversee such large expenditures of taxpayer dollars.

Today the Yucaipa Valley Water District does an excellent job of delivering clean, reliable drinking water directly to your home. It is a well run organization that operates more like a business for the people rather than a government bureaucracy. As a local businessman I am proud to be associated with such an agency.

Current Water Positions:

- 3rd District Director YVWD
- Financial Corporation Secretary YVWD
- Member San Bernardino Valley Municipal Water District Advisory Commission on water policy

My goal is to **continue** in a leadership role in managing local water resources and overseeing these and future facility upgrades and system enhancements.

I would be honored to have your vote on November 7th.
